NEWS-02: 2011 Calendar "World Class Diesels" available for pre-order Submitted by: Pat Householder on 5/3/2010

The 2011 calendar focuses on the world's most deadly Air Independent Propulsion submarines. Although the US Navy no longer uses diesel powered submarines, many of the world's navies are either constructing or using Air Independent Propulsion non nuclear submarines.

Quiet and deadly, their shortcomings are speed and 'legs'.

Employed as guardians at the world's shipping choke points where speed and the ability to travel long distances are unimportant, the AIP boats are a very deadly and silent adversary.

Now accepting orders for delivery later. Contact Huey Hahn, Nat'l SK for Base pricing.
