Subject: Sierra Verde Static Display

The Sierra Verde event for tomorrow is a **GO!** Refer to the detailed information on the website. **The sub float is still in drydock with a brake light wiring problem and will not be present tomorrow for this event.** Nevertheless, for those that choose to attend, please be there around 7:45 am, to muster. We have done this event in the past but not without the sub float. Ergo, it will be a little less exciting for the students. so be prepared to muster at that time. We have done this in the past and the sub is a big hit. Also, the students put on a very heartfelt and sincere program that honors the veterans and that alone is worth the price of admission.

This is an official email communication from the USSVI Perch Base and does not require a response.
